

Aura Series

LTE 800,
up to 790
LTE 700,
up to 694

Digital and analogue TV reception for community and individual antenna installations, some models totally adapted to the LTE environment.

FEATURES

- Small size, minimum aesthetical impact maximizing the electrical parameters.
- High gain/length ratio.
- Two references adapted for the protection against LTE signals. 84401: 790 MHz LTE and 84402: 694 MHz LTE
- Easy installation, no need for tools.
- Optimized single unit packing.

SIGNAL
RECEPTION

MODEL		AURA	AURA D2
Reference		84401	84402
Channels		21÷60	21÷48
Gain	dB	12	
Impedance	Ω	75	
Return losses	dB	15	
Front to back ratio	dB	15	
Horizontal opening angle	$^{\circ}$	15	
length	mm	430	
Packing dimensions (1UN)	mm	530x180x80	
Weight	Kg	1,1	
DC pass	mA	-	
Packing dimensions	mm	170x105x50	
Weight	Kg	0.355
