

VIP 557 LTE 700MHz

Art. Number 369130

The VIP 557 is a pre-assembled three-layer UHF antenna. It covers channels 21-48 and incorporates mechanical filtering to reject 3/4/5G and LTE signals to prevent them from disturbing TV signals. Its high gain, its mounting bracket with wing nuts and its new click system for locking the reflectors make it a professional quality product.
